

The Project

Torino Piemonte Aerospace offers international buyers a preferential channel to meet and develop business with a selection of top class enterprises of the aerospace and defence sector based in Piemonte, Italy. The team's assistance is completely free of charge. It ascertains buyers' needs, upon request it suggests possible suppliers and arranges one-to-one meetings in Torino or on one's premises. The companies selected by *Torino Piemonte Aerospace* respond to strict parameters of evaluation: technical know-how, innovative products and processes, quality, programme development, global coverage, human resources potential and team work ability. The resulting group represents all fields of production: aircraft manufacturing, components & mechanics, plants & machineries, systems & subsystems, special metalworking, defence vehicles and systems, components of electrical systems for aircrafts and satellites, test and control equipment, engineering, prototyping, software creation and consultancy.

The initiative is promoted by the Torino Chamber of Commerce and is managed by Piemonte Agency.
